

October 21, 2009

Dear Ms. Knoll and Staff,

Thank you and your staff for doing a great job of showing us around. The activities were really fun. The part I like best was station 2 when we had to put all of the pieces together. We only got to problem 4. It was amazing over there!

Thanks again,

Dear Ms. Knoll and Staff,

Thank you and your staff for doing a great job of showing us around. The activities were really fun. The part that I liked best is station one where we used electricity. I think it is really fun to work with electricity.

Thanks again,
