

## Special Events with a Special Touch

### HOSTING YOUR EVENT AT A MUSEUM GIVES YOU THE EDGE YOU'VE BEEN LOOKING FOR

The National Museum of Nuclear Science & History adds a special touch to any event. Guests can enjoy your presentation, while surrounded by exhibits and artifacts from the nuclear and atomic age. This brand new facility educates visitors of all ages on every aspect of nuclear history, as well as nuclear technology of today. Walking through the exhibit *Pioneers of the Atom*, visitors step back in time to meet the individuals who influenced the nuclear world. In *Radiation 101* you learn the basic facts about radiation, such as what

it is, where it comes from, how much is in our world and what effect it has on our universe. Nuclear Power is an important option for the United States and the rest of the world to meet future energy needs. In the exhibit *Energy Encounters*, visitors will learn about how and why 17% of the world's energy is provided by nuclear power plants. This exhibit looks at the world's dependence on all energy forms and how nuclear power can help fulfill those needs. These exhibits, and more, can be part of your memorable event.

### PREFERRED CATERING

The National Museum of Nuclear Science & History highly recommends the use of the following preferred caterers:

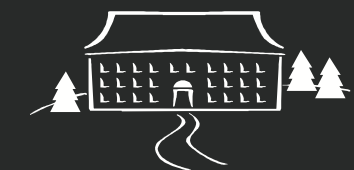

Blue Plate Special  
505.255.2583

Sweet Blessings  
505.298.4800

### ACCESSIBILITY

Less than five miles from Albuquerque International Sunport and barely a mile from the I-40, the National Museum of Nuclear Science & History is easily accessible from all points of entry. Downtown is less than five minutes away, where you can catch the Railrunner to spectacular Santa Fe.

### LOCAL LODGING

Many affordable hotels are located within two miles of the museum:

Quality Inn  
Holiday Inn Express  
Sandia Courtyard Hotel  
Econo Lodge  
Days Inn  
Guesthouse Inn & Suites

### FULL SERVICE EVENTS

- PRIVATE USE OF MUSEUM
- PARKING

- AV EQUIPMENT
- SET UP AND TEAR DOWN
- CENTERPIECE OPTIONS
- GIFT SHOP
- DOCENTS & AMBASSADORS

## a unique function they won't forget

### CORPORATE MEETINGS & LECTURES

The National Museum of Nuclear Science & History has state of the art meeting spaces that will make your next meeting memorable. From board meetings to lectures, you can take your partners away from the monotony of the office to the warmth of the Museum. Features of the Museums meeting rooms include:

- Complete Audio Visual services
- High Speed Internet
- 1,500 square feet of flexible meeting space

### DOCENT GUIDED TOURS

Offer your guests the opportunity of a cocktail hour, while being guided through the Museum by a trained docent or ambassador. The National Museum of Nuclear Science & History offers the unique experience of having the men and women that developed these technologies serve as your guides. These trained and experienced individuals share their knowledge from working in the nuclear field with our guests.

### SURROUNDED BY THE HISTORY AND FUTURE OF THE SCIENCE, TECHNOLOGY, ENGINEERING, MATH, AND PHYSICS OF THE NUCLEAR WORLD.

### FORMAL DINNERS & RECEPTIONS

Experience the joy and elegance of a dinner party at the National Museum of Nuclear Science & History. With seating for 265 or receptions for up to 900, the Museum is the ideal location for your next big event.

The Museum boasts the ambiance and resources of a formal venue, with the addition of the atmosphere of science, technology, engineering, history, math, and physics. Your guests will dine among the pioneers of the scientific world.

- cocktail receptions for up to 900
- seated dinners for up to 265
- theater seating for up to 355
- over 3,000 square feet of banquet space
- 30,000 square feet of total reception space
